Watch both sunrises and sunsets over the mountains from this expansive West Bishop home. Whether it be enjoying summer BBQ's on the back patio around the sprawling pond or gathering around the stone fireplace in the winter this home has so much to offer inside and out. The large kitchen has recently been updated with granite counter tops for the family chief. Three bedrooms and two baths in this nearly three thousand square foot home. A three car garage, laundry room, green house, and oversized pantry provide ample storage within the home. The private community offers an abundance of streams, ponds, and green space, along with a tennis court and storage area.
